Customized Solutions

Introducing a groundbreaking solution that's both unique and first-to-market, meticulously tested to ensure reliability. Our Solutions are authentically crafted to set new standards in the industry, delivering unmatched quality and innovation..

PROJECT PORTFOLIO

- Due to NDA obligations and privacy considerations, We are unable to disclose specific project links or names.

1. CUSTOMIZED ERP

- Experienced in successfully delivering over 45 diverse projects across various sectors including manufacturing, small shops, and mid-scale industries. Implemented customized ERP solutions, utilizing a unique project handling technique to meet user requirements and drive operational efficiency.

2. MOBILE APP AND PRODUCTS

- Recognized client needs for enhanced technological efficiency, leading to the introduction of mobile apps that streamlined operations and reduced reliance on computers and laptops. Resulting in increased profitability and decreased resource dependency, driving overall business success.

3. SOFTWARE DEVELOPED

- To address security concerns, as per requirement, provided both online and cloud solutions, as well as standalone and Windows-based software. These solutions facilitated daily operations while ensuring data security. Despite the challenges, successful troubleshooting led to over 19 successful projects in this category

4. TOTAL NINE DATA SCIENCE PROJECTS

I have known Yasmin since 2010 when she had a small software setup but had the conviction and passion of establishing her own firm. She is highly focused, meticulous and committed to the assignments that she takes up and has the acumen to sense an opportunity and take it to closure with full steam. A well balanced approach of business and technology, a hunger for growth and ability to mentor team from freshers are a few qualities that define her uniqueness..

Sameer Aghashe - Co-Founder at Litmblox and TEDx Speaker

Yasmin is a person whom I have seen working with lot of dedication and determination. She is a great leader and have showcased wonderful influential skills. I wish her all the good luck in future...

Sameer Deolekar - Sales & Business Development Manager - Sandvik Asia Pvt Ltd

Yasmin is passionate about her work. She is intelligent and finish the job with full dedication. I appreciate her work as she made a customized ERP software for my company giving ease in daily business transactions. She is honest and trustworthy.

Mr. Jameel Patel - Founder, PipeMatrix India

Yasmin is a highly motivated and involved Entrepreneur. I have found her very logical and planned in her work and always learning and adapting. She is a tremendously balanced individual for her age with great sense of maturity and responsibility and excellent technical acumen. As a client too I have always got good and timely service from Yasmin and her team.

Riaz Mulla - Head Leadership Learning & Talent Dev at Tech Mahindra

Testimonial

Our clients' success stories speak volumes about our services

It is always pleasing to work with Yasmin & her team. She has excellent solutions for your doubts. One person whom you can trust fully is "Yasmin" Shrim is completely dependent on Yasmin for its IT

solutions...

Deepika Joshi - Business Manager , Shrim Technology , UK
